Female fronted Electronic Dance merged with Industrial elements and fiery vocals. They've been called one of the most original bands who manage to combine passion and hard hitting electronics that pour out onto the dance floor.

The Azoic re-emerge with this stunning CD single after their successful 'forward...' release. It features the addictive club hit "Conflict" with diverse remixes from ***Iris, Negative Format, Imperative Reaction, Massiv in Mensch, System Syn,*** *and* ***CombiChrist*** *(*Icon of Coil *side project), plus an amazing multimedia video! Styles ranging from dance to EBM to trance, powernoise and synth-pop. A must have!*
